QUARRY MANAGER

PARKBURN QUARRY, CENTRAL OTAGO

Fulton Hogan are recruiting for the position of Quarry Manager at our Parkburn Quarry located near Cromwell, Central Otago. The successful candidate will be responsible for the business and strategic planning with a focus on creating operational excellence, as they oversee and manage one or the largest alluvial quarries in Otago-Southland. With an exciting period of development on the horizon this is an opportunity not to be missed!

THE SKILLS WE'RE AFTER

The ideal candidate would possess the following skills and attributes:

- An 'A' Grade Quarry Managers certificate
- In depth knowledge of sand, aggregates and chip processing including the ability to maintain quality along with technical compliance
- Maintenance forecasting and programming experience to meet production requirements
- Ability to keep focused when under pressure and deliver well considered outcomes
- Excellent leadership skills, with experience in managing large teams, and internal and external stakeholder management skills
- Have excellent written, verbal and interpersonal communication abilities along with strong systems knowledge and computing skills
- A team player, with a positive nature to enjoy a hard day's work
- A successful track record with regards to health and safety
- Up to date with the latest technology and initiatives within the industry
- The ability to effectively manage the pricing of routine work as well as quoting for future contracts
- Class 1, 2, 4 and WTR licenses essential

SOUNDS LIKE YOU?

If this sounds like the exciting next step in your career and for more information on the role get in touch with Nicola Loach on 0272971288 or nicola.loach@fultonhogan.com

All successful candidates must under-go and pass a pre-employment medical and drug screen

JOIN OUR TEAM

QUARRY FOREMAN LUGGATE QUARRY, CENTRAL OTAGO

Fulton Hogan is looking for a Quarry Foreman to join our team at Luggate Quarry within the Central Otago Quarries division. We have a permanent full time position available, with a need for someone with experience at operating a range of heavy machinery from loader to excavators to crushing plant, can self-manage their time and who can slot well into a team to ensure a seamless transition. So you want to work with a knowledgeable and enthusiastic team who will support you in learning our business and will ensure you enjoy coming to work each day then this could be the role for you!

THE SKILLS WE'RE AFTER

The candidate will be able to work well with others, plan the daily operations and have a mind for health and safety while you are working. You will enjoy getting stuck in to meet production targets and take pride in your machinery and operation.

- Minimum Class 2 license with WT endorsement required
- Loader operation experience
- Excavator operation experience
- 3 years' experience in the quarrying industry or similar
- Strong problem solving skills
- Good leadership skills
- Mechanically and practically minded
- Good communication skills and a positive attitude
- Commitment to health and safety
- A team player
