

WEBINAR

Alternatives to Traditional Extractive Methods

Proudly facilitated by Tesmec

Date and Time: 27 September 2023 – 9am-10am

Facilitator

Hamil Pala, Expert in bulk excavation with long time experience in NZ with major companies (Tescmec, Marais Laying, Porter Group, NZ Equipment group)

Overview

Join us for an insightful webinar as we shed light on the state of quarrying in New Zealand and explore the existing extraction solutions, the rise of surface mining technology, and a compelling case study of limestone extraction at three Canterbury quarries.

Topics

- Part 1: The Current State of Quarrying in NZ
- Part 2: Existing Extraction Solutions
- The Rise of Surface Extraction Technology
- The Benefits of Surface Miner Technology
- Part 3: Surface Miner use in Extraction of Limestone at Three Canterbury Quarries
- Q&A session
- Conclusion
