

Institute of Quarrying New Zealand (Inc)

WEBINAR

Installation and Maintenance of Electric Motors

Duration: 1 hour

CPD Hours: 1-hour Unrestricted Activity

Facilitator: Rodrigo Duarte - Product Manager – Motors for TR Industries Ltd – WEG Distributor New Zealand and Pacific Island

Learning Objective:

To understand the important basic factors related to the selection, installation, and maintenance of 3 phase electric motors that are used in the Quarry Industry. This presentation has been structured to provide the managers and or maintenance staff of Aggregate Processing Plants with a basic understanding of the technical aspects of the numerous types of electric motors that are needed in a production plant.

Topics:

1. An understanding of the factors relating to the correct selection of an electric motor for the variety of applications in your plant.
2. Information relating to the correct mounting of an electric motor.
3. The important information for the ongoing, often ignored, maintenance of an electric motor.

Cost:

- \$25 IOQ NZ Member
- \$50 Non-Member
- \$25 IQA Member
