

Quarry Manager B Grade – Southern Humates

Full Time

- Job security
- Friendly team and excellent benefits package
- Down to earth company who respect and value their staff

About the Role

As a B-grade quarry manager you are expected to apply in-depth knowledge to plan and implement safe and productive operations and procedures for the extraction of high quality humate. Southern Humates is a progressive company seeking to develop a highly productive team to meet demand for their range of both solid and liquid humate products. It is a full - time role with attractive benefits and a friendly working environment

About the Company

Southern Humates quarry is located at Waituna Lagoon Rd, Southland and extracts high quality organic certified humate product which is dried, screened and bagged on site for soil health and animal health. The product is then despatched either direct to the customer or to depots located nationwide.

About You

Ideally the successful candidate will:

- Hold a B Grade COC
- Have previous earthmoving experience
- Demonstrate a strong focus on Health & Safety.
- Possess the ability to supervise and lead a small highly productive team

Applications close on 31st March 2022
