

WORKSAFE

Mahi Haumaru Aotearoa

in partnership with the IOQNZ

Workshop

WorkSafe Extractives team will be delivering quarry workshops as part of the implementation for the revised Health and Safety at Work (Mining Operation and Quarrying Operation) Regulations (MOQO Regs). The Workshops are to assist quarry operators with understanding what they need to do to meet MOQO Regs. The workshop will cover risk assessment, duties of quarry manager and quarry operator, notifications to WorkSafe, quarterly reporting, and health and safety management system.

Audience

The target audience is B grade quarry operations. These are operators who have four or less workers. A grade quarry operators are welcome to attend but they need to be aware that the training is targeted to B grade quarry operations.

Objective

We aim for the workshops to be interactive so will look to incorporate small group work, practical examples and use of photos from sites. The aim of the workshop is for attendees to leave with a HSMS framework that is tailored to their site. Quarry managers and administrator are encouraged to attend with a laptop. Workshops will be limited to 25 attendees

Register

To register or find your nearest workshop please contact your local IOQ branch secretary.

[NZ Branch Officers - Institute of Quarrying \(ioqnz.co.nz\)](http://ioqnz.co.nz)

Continuous professional development

There will be up to four hours available CPD for attendees.
